We are the only company in Latin America specialized in manufacturing removable gooseneck and fixed neck Lowboy, for any capacity and any application.

We also manufacture trailers for the construction industry, transportation of heavy machinery and excessive dimensions.

Our trailers compete in the International market with the most prestigious brands. We are proud to say that our units have the highest worldwide quality standards. Because we adapt our manufacturing to every need and any country regulations.

OUR PRODUCTS

ADJUSTABLE GOOSENECK LOWBOY

Our units are distinguished for having the capacity to have from one to three different heights. Each one is exclusively designed for the capacity and needs required.

FIXED NECK LOWBOY

Customized with beaver tail, rear ramps, straight bed with oilfield, and roller rear with double deck in order to fit each customer's needs..

END DUMPS

We manufacture and design many types of End Dumps. They have Air Ride Suspension and vary from 2, 3, and 4 axels with springs. We use the latest technology and different steel; A36, AR400, Hardox, and stainless steel.

FUEL & LUBE TRUCK

Specially made to carry fuel and lubrication equipment for maintenance of machinery and transportation units. Manufactured for small or medium size trucks

MULTI - SOURCE TANK

We manufacture tanks in any capacity and we customize them by adding equipment to run down the water at front, rear and sides; by gravity force or by water cannon. The pressure sprayer equipment reduces the quantity of tanks needed for the same job.

FLATBED

They can be flat bed and drop deck from 35" to 53", with bed sets of 2, 3, and 4 axles.

As well with fixed axles, sliding tandem, and separated axles in 15, 30, 45, and 60 ton.

JEEP DOLLY

Designed according to the load needed. From 1 to 3 axles with sliding fifth wheels, neck for 3 axles tractor and expandable neck for 4 axles tractor. Has Air Ride Suspension and ABS system.
